ASSEMBLY INSTRUCTIONS:
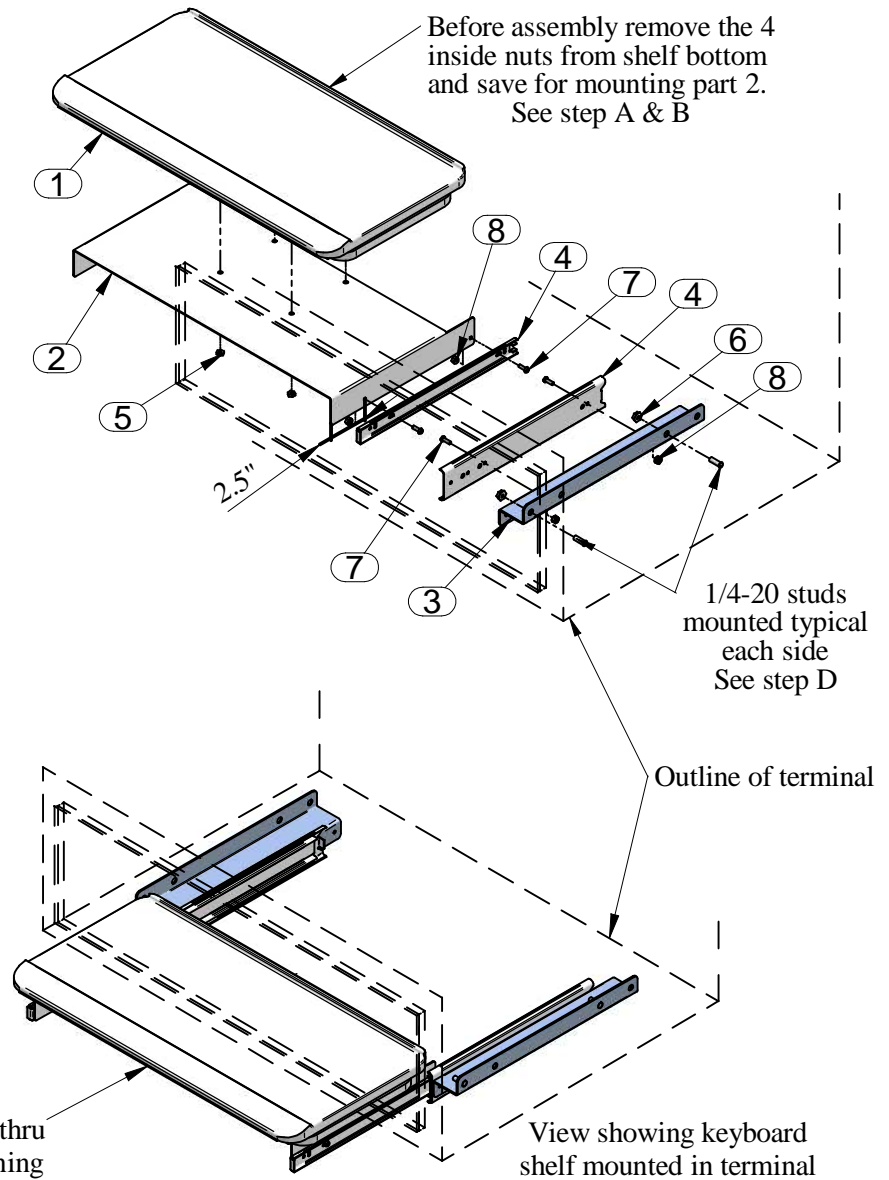

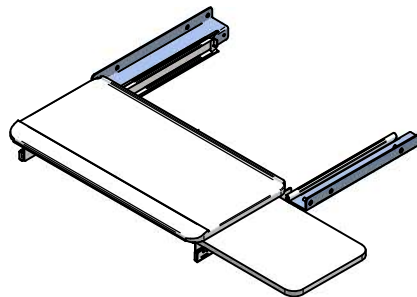

A) Remove 4 10-32 screws from bottom of shelf mounting angle as indicated in note.

B) Mount shelf mounting angle (item 2) using the 4 screws (item 5) that were removed from shelf bottom. Note dimensions 2.5" (63.5mm) for slide mounting hole is to front of shelf.

C) Open lower door in data terminal.

D) Mount keyboard spacer (item 3) onto 1/4-20 studs (located on both sides of terminal using 1/4-20 KEP nuts (item 6)

E) Separate the slides (item 4) as shown into 2 parts.

F) Mount the slide insert to the shelf mounting angle using 8-32 hardware (items 7 & 8)

G) Mount the slide body to the keyboard spacer on terminal side using 8-32 hardware (items 7 & 8) as shown.

H) Mount shelf by guiding the slide insert into the slide body. Push shelf into slide completely to lock shelf into place.

Before assembly remove the 4 inside nuts from shelf bottom and save for mounting part 2. See step A & B

2.5"

1/4-20 studs mounted typical each side See step D
